ECSCW’05 Conference Committee xi

ECSCW’05 Program Committee xii

Ways of the hands 1

David Kirk, Andy Crabtree, and Tom Rodden (University of Nottingham, UK)

A design theme for tangible interaction: Embodied facilitation 23

Eva Hornecker (Interact Lab, University of Sussex, Falmer, UK)

Supporting high coupling and user-interface flexibility 45

Vassil Roussev (University of New Orleans, USA) and Prasun Dewan (University of North Carolina, Chapel Hill, USA)

A groupware design framework for loosely coupled workgroups 65

David Pinelle and Carl Gutwin (University of Saskatchewan, Canada)

Formally analyzing two-user centralized and replicated architectures 83

Sasa Junuzovic (University of North Carolina, Chapel Hill, USA), Goopeel Chung (Westfield State College, USA), and Prasun Dewan (University of North Carolina, Chapel Hill, USA)

Working together inside an emailbox 103

Michael J. Muller and Daniel M. Gruen (IBM Research, USA)

Emergent temporal behaviour and collaborative work 123

Lesley Seebeck and Richard M. Kim (University of Queensland, Australia), Simon Kaplan (Queensland University of Technology, Australia)
Managing currents of work: Multi-tasking among multiple collaborations  
*Victor M. González and Gloria Mark (University of California, Irvine, USA)*

The duality of articulation work in large heterogenous settings - a study in health care  
*Louise Færgemann, Teresa Schilder-Knudsen, and Peter Carstensen (IT University of Copenhagen, Denmark)*

Maintaining constraints in collaborative graphic systems: the CoGSE approach  
*Kai Lin, David Chen, Chengzheng Sun, and Geoff Dromey (Griffith University, Australia)*

Empirical investigation into the effect of orientation on text readability in tabletop displays  
*Daniel Wigdor and Ravin Balakrishnan (DGP Lab, University of Toronto, Canada)*

An evaluation of techniques for reducing spatial interference in single display groupware  
*Theophanis Tsandilas and Ravin Balakrishnan (University of Toronto, Canada)*

Cellular phone as a collaboration tool that empowers and changes the way of mobile work: focus on three fields of work  
*Eriko Tamaru, Kimitake Hasuike, and Mikio Tozaki (Fuji Xerox Co., Ltd., Japan)*

Representations can be good enough  
*Jacki O’Neill, Stefania Castellani, Antonietta Grasso, Frederic Roulland, and Peter Tolmie (Xerox Research Centre Europe, France)*

Using empirical data to reason about Internet research ethics  
*James M. Hudson and Amy Bruckman (Georgia Institute of Technology, USA)*

Community-based learning: Design patterns and frameworks  
*John M. Carroll and Umer Farooq (The Pennsylvania State University, USA)*
Expertise sharing in a heterogeneous organizational environment

Tim Reichling and Michael Veith (University of Siegen, Germany)

Local expertise at an emergency call centre

Maria Normark (Royal Institute of Technology, Sweden) and Dave Randall (Manchester Metropolitan University, UK)

Context grabbing: Assigning metadata in large document collections

Joachim Hinrichs (Institute for Information Management, Bremen, Germany), Volkmar Pipek (International Institute for Socio-Informatics, Germany, and University of Oulu, Finland), Volker Wulf (University of Siegen and Fraunhofer FIT, Germany)

Between chaos and routine: Boundary negotiating artifacts in collaboration

Charlotte Lee (University of California Irvine, USA)

Coordination and collaboration environments for production lines: a user acceptance issue

François Laborie (EADS Corporate Research Center, France), Stéphane Chatty (IntuiLab, France), Claude Reyterou (EADS Corporate Research Center, France)

Sharing the square: collaborative leisure in the city streets

Barry Brown, Matthew Chalmers, and Marek Bell (University of Glasgow, UK); Ian MacColl (University of Queensland, Australia); Malcolm Hall and Paul Rudman (University of Glasgow, UK)

Informing public deliberation: Value sensitive design of indicators for a large-scale urban simulation

Alan Borning, Batya Friedman, Janet Davis, and Peyina Lin (University of Washington, USA)
The work to make a home network work 469

Rebecca E. Grinter and W. Keith Edwards (Georgia Institute of Technology, USA), and Mark W. Newman (Palo Alto Research Center (PARC), USA)

Index of authors 489
